# BESPOKE WEDDING COLLECTIONS

Every wedding is unique and I am of course more than happy to create a coverage option that meets your specific needs based on exactly what you want for your day:

Number of hour's coverage

Number of prints

Enlargements and canvass wraps

Albums & parent albums

Engagement shoots

Save the date and thank you cards

## THE NEXT STEP

---

The next step would be to meet in person for a coffee and a chat or to talk over the phone, so that we can discuss your exact photography needs and to go through your day in a little more detail. It also gives me the opportunity to show you some more examples of my work.

An e-mail of intent holds your wedding day for period of two weeks and upon signing of the contract, along with a deposit of a third of the final amount, confirms your booking and it is placed firmly in my calendar. I shoot all wedding myself and will take no other bookings on that date. Payments are made in three equal installments; one at contract signing, one four months before the wedding date and the last, one month before the wedding date.

From experience, eight hours is the *most popular* amount of time for wedding photography coverage. This is because it allows a good amount of time before the ceremony for preparation shots, the ceremony itself, time to get group portraits and great shots of the two of your together. It also gives a good time for the party action and speeches, providing rounded coverage of your day.

Please note, less than 4-hour coverage (\$2650) is only available for mid-week bookings or for last-minute bookings (weddings on weekends taking place within two months of booking date) subject to availability. Prices do not include state sales tax, which will be added onto the final amount.

Please get in touch if you have any questions:
